### Cade poised to greenlight Suzano-Fibria deal

12:00 AM (GMT -03:00) – Sep 03 2018

Antitrust agency Cade's General Superintendence is expected to conclude in the coming months its analysis on the merger of pulp and paper producers Suzano and Fibria. According to sources familiar with the body, the current interpretation is that the transaction does not cause competitive problems and, therefore, is likely to be approved without restrictions, giving a relevant step for the creation of a R\$66 billion company in market capitalization. The Suzano-Fibria deal has already been cleared by antitrust bodies in the US and China.
